

DASSEL-COKATO PUBLIC SCHOOLS

# BUILDING 466

PROJECT PROGRESS 2022-2024

...Spring 2024

### MOVING HS CLASSROOMS:

Three primary waves of moving will occur:

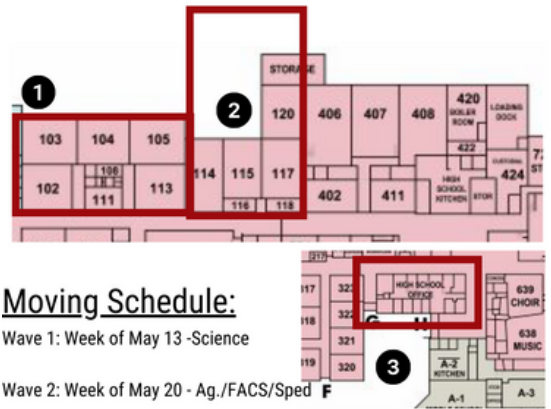

- Week of May 13th - Science
- Week of May 20th - Ag./ HS FACS/ SPED
- Week of May 27th - High School Administrative Offices
- The remainder of spaces (middle school, HS EL, woods/shop) will be moved after school is released or as individually scheduled.
- Email Orrin Polzin if you need additional boxes for packing.
- Email John Heltunen if you have questions about disposing of items.

### SUMMER PROJECT SPACES INCLUDE:

- High classrooms for science, Ag, FACS, woods, metals, and DCD special education
- High school commons bathrooms
- High school administrative offices and the front entrance
- Middle school classrooms for industrial technology and FACS
- Pilot projects at both Dassel and Cokato Elementary

-- Summer construction is upon us. Here is what you can expect for the remainder of the school year.

- Please help construction crews by no longer parking or driving on the north side of the building. Lot A will be closed from April 15 through fall.
  - Door A is not accessible - please use the PAC entrance for the time being.
  - Only a few parking spaces will be reserved for custodial and food service staff. We appreciate your cooperation in keeping these spots available for them.
  - Fencing will be completed in early June for safety purposes. When this occurs, the road on the north side of the building will no longer be accessible for summer.
- The high school will be closed during the summer, and there will be no classroom access.
  - Please take home any items you may need over the summer.
- Construction begins the week of May 20th with asbestos abatement and demolition.
  - Hallways will be sealed off as classrooms are emptied.
  - Due to construction, there will be some noise, but it will be minimal and intermittent.

### Moving Schedule:

Wave 1: Week of May 13 - Science

Wave 2: Week of May 20 - Ag./FACS/Sped

Wave 3: Week of May 27 - HS Admin. Offices

### ELEMENTARY PILOT PROJECTS:

The areas shaded in pink will be closed for construction or construction pathways.

- Dassel Elementary's rooms 109 and 119 will be renovated to become intervention spaces this summer.
  - Construction crews will use the playground door to access these spaces. This entry will be closed for the summer.
- Cokato Elementary will undergo renovations to increase soundproofing in the conference room and renovate C122 to become an intervention space.
  - At this time, the construction duration and summer building accessibility are still being determined.
  - Construction will not affect ESSY and summer school, however, some noise is anticipated but is expected to be minimal.
